

Congratulations! You are one step away from visiting what we think is Greenville's most dedicated and professional pediatric dental practice! At Holly Tree Pediatric Dentistry, our team is committed to helping children develop and grow not only to have exceptional dental health and enjoy visiting the dentist, but also to make successful, educated adolescents and adults.

Holly Tree Pediatric Dentistry is unlike any office you may have previously visited. We do not over-book our schedule so that when you come in you won't feel rushed without having your questions answered. Because we are prompt in seeing you at your scheduled time, we ask that you are prepared in finding our office. We do not recommend using a GPS or directions via the internet as they often take you to a different location. Please feel free to call us and we'll be happy to assist you with specific directions.

Enclosed, you will find 5 papers; a Welcome Letter, Kid Survey, Health History, Our Financial Guidelines and Directions (if needed). Please take a few minutes to neatly complete this information and bring it to your scheduled appointment. If possible, please allow your child to complete the Kid Survey. This gives us a chance to know a little about him/her prior to starting their initial visit. If you have dental insurance, please bring that information also so we may assist you with filing for your reimbursement.

Dr. Ann and our team are excited to meet your family and look forward to taking care of your child/ children's dental needs for many years to come! Again, should you have any questions or concerns, please feel free to contact us via email or phone. And please visit our website at www.hollytreepediatricdentistry.com.

Toothfully Yours,

Dr. Ann Bynum and the Team at Holly Tree Pediatric Dentistry
